THE NEW
XV **GT** EDITION
BOLDNESS RELEASED

THE NEW XV GT EDITION

Bold, tough and ready to take on anything. The XV GT Edition is built with accessories designed by the renowned Masahiko Kobayashi, former Chief Designer (Head of Global Advanced Design Studio) at Subaru Corporation, with over 25 years of experience. He is the man behind the Levorg, WRX, WRX STI, first-generation XV and more. This XV GT Edition has a sleek aerokit and leather seats inspired by high-performance European grand tourers. Experience the XV like never before with the GT Edition.

01 Front Bumper Lip Extension

Added for a sleeker look.

02 Rear Bumper Lip Extension

Offers added protection to the bumper area while giving it a rugged accent.

03 Side Skirts

Lending a more robust feel.

04 Bespoke Alloy Wheels

Exclusively manufactured to complete the bold look of the XV GT Edition.

05 Roof Spoiler

Improves aerodynamics and handling due to more effective downforce.

06 Dual Side-View Monitor System

Allows easier parking and manoeuvring.

07 Special Leather Seat Upholstery

Inspired by the cabins of high-performance grand tourers from Europe.

BOLD SAFETY

Symmetrical All-Wheel Drive

Designed to distribute power to all wheels for better steering response. It offers surefooted stability even at high speeds or in bad weather, plus balance and traction on wet roads too.

Subaru Global Platform

Taking superior driving capabilities to a new level, the Subaru Global Platform delivers improved manoeuvrability, reduced vibration and noise, plus the confidence to navigate all roads.

Direct Fuel Injection Boxer Engine

In addition to the lower centre of gravity, the 2.0-litre horizontally-opposed engine now comes equipped with Direct Injection to boost fuel economy, engine output and performance.

All-Around Safety

The increased use of high-tensile steel provides a stronger frame that improves impact energy absorption by 40%. A total of 7 SRS airbags – front, front-side, curtain, and knee – offer a higher level of protection.

BOLD FEATURES

X-MODE

Conquer any challenging weather and roads with the X-MODE function, adding even more peace of mind to your drive.

Steering Responsive Headlights

The illumination direction of the headlights moves left or right according to the steering wheel to ensure better visibility.

Spacious Boot

In addition to being more spacious, the luggage compartment also has a wider, almost square opening, allowing for greater ease when loading and unloading bulky luggage and other items.
